

## Asperitas and 2CRSI Announce Immersed Computing® Partnership

---

- To develop new cutting edge server solutions for Immersed Computing® to be offered to customers with high performance requirements

Strasbourg, October 18, 2018 at 06:00pm - Dutch cleantech company Asperitas and French IT specialists 2CRSI have announced a partnership on Immersed Computing® during the GITEX international technology week in Dubai.

Asperitas and 2CRSI are working on the integration of the Asperitas Immersed Computing® solutions in the existing portfolio of hardware solutions of 2CRSI and developing new cutting edge server solutions for Immersed Computing® to be offered to customers with high performance requirements.

Immersed Computing® is an award winning solutions portfolio developed by Asperitas. The solutions portfolio is based on total liquid cooling (immersion). Asperitas' first solution, a plug and play datacentre in a box solution, was launched in 2017. Since Asperitas launched their solution they have received numerous international awards for their sustainability and positive impact, including the Europas Greentech Startup of 2018 and Global Change Maker awards by the Herald and Innovators Magazine. Asperitas deployed several installations including a high density 300 kW dedicated Immersed Computing® facility in Eindhoven in The Netherlands. Their mission is to enable sustainable, efficient and flexible datacentres anywhere, including high density datacentres for emerging digital technologies.

**Alain Wilmouth, Founder and CEO of 2CRSI** commented: *"It is part of our DNA to develop cutting edge technologies with a focus on Green IT solutions. Immersed Computing® opens a new chapter to improve datacentre cooling by lowering costs and increasing efficiency of infrastructures. With the hardware expertise of 2CRSi coupled with the Immersion cooling expertise of Asperitas, we are developing the computing of tomorrow."*

**Rolf Brink, Founder and CEO of Asperitas** stated: *"Asperitas is focused on partnerships and 2CRSI is offering excellence in server design and engineering which is unprecedented. With the combination of 2CRSI and Asperitas' Immersed Computing®, we will be able to deliver sustainable integrated high performance solutions for our customers at a whole new level."*

## About Asperitas

Asperitas is a Dutch clean-tech company focused on 'greening' the datacentre industry by introducing Immersed Computing®. Since 2014 Asperitas has worked on validating and developing Immersed Computing® as a unique approach to the datacentre industry. This can offer great advantages on all levels of the datacentre value chain whilst producing maximum results in Cloud, HPC and Edge.

## About 2CRSI

Based in Strasbourg, and with subsidiaries in Manchester, Dubai and San Jose at the heart of America's Silicon Valley, 2CRSI specialises in the design and manufacturing of very high-performance computer servers. As a new class of hardware manufacturer, 2CRSI embraces true differentiation which enables them to provide innovation and optimization for better performance, higher density and the best efficiency. The Group already has more than 100 customers in 25 countries, to whom it has supplied innovative processing, storage and data transfer solutions. In 2017, the 2CRSI Group had consolidated revenue of €31m, an increase of 169%, with an EBITDA margin rate of 7.3%. It currently employs more than 130 persons.
