## **2CRSi solutions and message expands onto new markets: 2CRSi Middle East convert Ethiopian market to OCP**

Strasbourg (France), June 9, 2022 - 2CRSi (ISIN: FR0013341781), designer and manufacturer of high-performance, energy-efficient compute servers, announces it has been awarded with a new contract through 2CRSi Middle East.

A new partner in Ethiopia, specialized in computing deployment, chose 2CRSi products and solutions to deploy their edge datacenter project.

The solution combines the value of all 2CRSi products together: OCP (Open Compute Project) server architecture to decrease energy consumption and Total Cost of Ownership (TCO) and a "Tranquil IT™" products to handle harsh edge environment.

Furthermore, part of the infrastructure will take advantage of 2CRSi custom-built capabilities, proving the need for energy-efficient, hybrid custom-made integration.

Through this opportunity and partnership, 2CRSi expands its global reach, aiming at promising markets with increased needs in high-performance digital infrastructure.

First phase of delivery is set for end of July 2022 and upon successful completion, further expansion shall continue over 2022 and 2023.

*"This deal reflects perfectly the strategy set with Dubai's team over the last 2 years: Build strong relationships with specialized partners, present products tackling real local challenges and expand our reach towards new markets. The African market has a huge potential, and this deal is set to be replicated really soon"* says Alain Wilmouth, co-founder of 2CRSi.
